RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir :

This is in response to the Office Action mailed November 17, 2004. A response is due by December 17, 2004.

The Action alleged that, subsequent to the claim revisions in Applicants' Amendment of August 23, 2004, the subject application now is directed to four patentably distinct inventions. Restriction was required from among the following:

Invention I of claims 1, 2, 5-8, 14 and 22, drawn to a micro-shape transcription method;

Invention II of claims 10, 11 and 23-29, drawn to an optical component manufacturing method;

Invention III of claims 9 and 19-21, drawn to a micro-shape transcription apparatus; and

Invention IV of claims 30 and 31, drawn to a method to control operating parameters of a micro-shape transcription press.

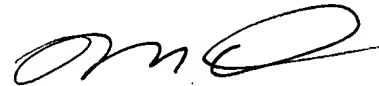

Applicants elect the invention of Group I, claims 1, 2, 5-8, 14 and 22 for further examination in this application. This election is made without traverse. Applicants advise that no change to the inventorship of the application is required by the election of the claims of Group I.

Applicants reserve the right to file divisional application(s) for the non-elected claims in due course.

Further examination on the merits and early action in that regard earnestly is solicited.

Respectfully submitted,
